Lucky Man.  
Good News Is Bad.  
Politics—  
And Religion.

—By Arthur Brisbane

MRS. TEXAS GUINAN, right, club lady of New York, here from France, and from England, was touched when a gentleman offered to marry her with the hope of making it possible for her to enter England.

But Mrs. Guinan said no, and asked a man, leaving the gentleman, as he admitted, "without money to get back to London."

Mrs. Guinan, a philosopher, says, "The man for me is a man who keeps depression away" she would wear a velvet dress and a white hat.

CHOD news of the wheat crop in Texas, enormous crop. And that, as usual, was had news, with growers under an intelligent system of agriculture and marketing group in wheat or cotton for farmers.

With a cessation of United States government buying and "promising" the price of American wheat dropped 12 cents in Chicago.

Old "Burrhead" and "Burrhead" in patient, wale and woe.

WILLIE farmers move north "too much wheat" and offers many a Russian in rejecting the prospect of a bumper wheat crop.

A great wheat crop means cash for Russia, sorrow for other nations.

## Defeated Niagara Falls

For more than two hours the barrel in which William Hill was attempting to shoot the Niagara barrel had eluded the whirling, skidding, sliding and lower but when it was finally brought to rest on the outer edge of the barrel's lip, William Hill, Jr., played into the treacherous corner and swam out to it with a rope. Here you are the younger Hill's attempt to the barrel. His barrel, safe and sound, was declared by him to be his son's time.

## Brownlee Suggests Initial Payment of 55 Cents a Bushel

Not Enough Money in Circulation Next Fall to Keep Business Alive Otherwise, He Declares

Unless the Dominion government places its credit behind an initial wheat payment of 55 cents a bushel, he could not see how sufficient money could be put in circulation in the next year to keep the business alive. Brownlee on Friday, immediately after he had wired Hon. R. B. Bennett suggesting Wednesday, June 3, at a conference date for the Canadian premier, the premier of the three private provinces and the representatives of grain marketing organizations. The proposed conference is the purpose of discussing the formation of a Canadian Wheat Board, which three private wheat pools have representatives in Regina today for a preliminary discussion.

Individuals are that the date set for the Ottawa conference will be acceptable to all parties concerned.

That the situation calls for immediate formation of a Wheat Board is the opinion of Premier Brownlee who stated that the formation of a Wheat Board is the only thing that will pull farmers through this year's crop. "If we are left to the present marketing agencies and means of financing the grain trade, the level can afford to be an initial wheat payment of 55 cents a bushel on the basis of 100 at Port William," said Premier Brownlee.

# B.C. Government Gets Behind Plan for Conference On Unemployment

## PARLEY WILL BE HELD IN PRAIRIE CITY

Will Formulate Plans for Public Relief Works in West

Canadian Press  
VICTORIA, B.C., June 5.—The provincial government Thursday announced the plan for a Western Canadian conference on unemployment to be held in June to formulate plans for public relief work.

After hearing this plan explained by Major L. O. Taylor of Vancouver Premier Thomas announced that the government would support the western conference and send representatives to it.

"We feel," said the premier, "that this conference will be of the utmost value in gathering data and making plans which can be placed before a national unemployment conference, which we understand, called by the Federal government, will be held later in the year."

The provincial government will be represented at the western conference by a member of the cabinet, probably Hon. W. A. McCreik, chairman of the cabinet unemployment committee.

The premier also made it clear that he is favorable to a comprehensive public works program rather than piecemeal measures of dealing with unemployment. He intimated that the possibility of extending the Pacific coast railway as a project designed to relieve unemployment would be considered, together with all other aspects of this problem at the railway conference to be held in Ottawa, in June.

The western conference will be fol-

WINNIPEG, Man., June 5.—Premier John Bracken Thursday announced he had sent out invitations for two conferences on unemployment to be held here late this month.

At the first, cities, towns and municipalities in Manitoba were asked to send delegates to a meeting June 17. The second conference was for the provinces of Saskatchewan, Alberta and British Columbia were invited to meet with him here about June 23 or 25. He mentioned the urgent need of the west province for a workable program for unemployment relief before the present session of parliament is prorogued at Ottawa.

## TEETH TAKEN FROM B.C.'S FRAUDS ACT

May Not Be Used to Get Evidence for Criminal Prosecution

Canadian Press  
VICTORIA, B.C., June 5.—The Securities Fraud Prevention Act may not be used as an instrument for collection of evidence which may be used in criminal prosecutions, the British Columbia Court of Appeal ruled Thursday when delivering judgment in *W. K. McKee v. Attorney General B. C.*

The judgment allowed the appeal to the extent that the court was of the opinion that the purpose of the act is to prevent fraud in the securities market and not to provide a means for obtaining evidence for criminal prosecution.

The appeal would be allowed to the extent of an injunction.

## Stamp Refuses To Accept Fee For Services?

Ottawa, Ont., June 5.—Sir Josiah Stamp, chairman of the government commission on future trading in grain, is understood to have refused to accept any fee for his services. The report of the commission, tabled in the House of Commons Thursday, contains an exhaustive analysis of grain trading and recommends the future system be retained.

Until an official statement is made by Premier R. B. Bennett, confirmation cannot be obtained. Sir Josiah's fee had been estimated in government circles at \$25,000. Sir Josiah Stamp, regarded as one of the world's foremost economic experts, was persuaded to leave temporarily his work of re-organizing English railways and come here. He spent a busy two weeks hearing testimony on grain trading and preparing the report, returning to England at the end of April.

It has been announced by Attorney-General Poirer that the province will carry the issue to the Supreme Court of Canada.

## TWO BROKERS GO ON TRIAL IN ONTARIO

Solloway and Mills Face 15 Charges of Theft of Stock

Canadian Press  
TORONTO, Ont., June 5.—J. W. C. Solloway and Harvey Mills, former partners in the stock broking firm of Solloway, Mills and Co., went on trial Thursday for the second time in this province. Before Mr. Justice Gervase sat a jury in spring session they had 15 charges of theft of stock from eight clients, totalling 5335 shares of various mining and oil stocks.

Progress in hearing of evidence was delayed all morning, while argument was presented by defence counsel, A. G. Smith, J.C., and H. M. Green, J.C., to have the first two counts thrown to the next session. They claimed the charges on the first two counts could not be proceeded with until one of the firm's account books had been recovered. They claimed it had been mislaid in trip back and forth across the Dominion.

## DIPLOMATS OF POPE'S COURT IN CONFERENCE

Italian Government Makes No Move Toward Conciliation

Associated Press Cable  
ROME, June 5.—The most diplomats in the court of Pope Pius centered with him Thursday regarding the critical situation between the church and the state but the Italian government apparently was making no move toward conciliation.

On the other hand, members of the Catholic church which have been driven by government order have been informed that up to July 1 they are eligible for membership in Fascist organizations. After that date they will be required to work their way up through the Fascist ranks to eligibility.

As a gesture of protest against the dissolution of Catholic clubs the Pope yesterday forbade the customary religious processions commemorating Corpus Christi day outside the Catholic churches.

Pious in Italy 20,000 parishes explained to their congregations that the unusual procedure was taken because there was no guarantee that the Corpus Christi processions would be free from danger of engaged in Anti-Catholic demonstrations for the past week or so.

# Two Boys will Go Adventuring this Summer

## HOW TWO FAR-SEEING PARENTS WILL HELP THEIR SONS TO KNOW MORE ABOUT THE PRACTICAL THINGS OF LIFE

ON a bright clear morning this June, two boys will step eagerly into a Ford roadster and start on a motor trip that will last the whole summer through.

Theirs will be a trip never to be forgotten . . . long to be remembered.

Regular school will have closed for them, but their practical education will be beginning. They will learn many things not found in books. Two far-seeing parents have attended to that.

Pressed by the boys to give them an automobile as reward for passing with high grades, the parents consented on one condition . . . that the trip must serve a useful purpose. So this plan was decided on.

Each day the boys will arise

at seven o'clock and follow a carefully arranged route and schedule. This calls for their visiting principal points of interest in this country and spending time in leading industrial plants. They will get back to the sources of raw materials—see how things are mined and grown—and follow them through the various stages of manufacture. They will see how they are used by millions of people.

Bustling factories will teach of the work of men and machines. The village farms and wide, rolling prairies will reveal the magic of nature and the treasures beneath the soil. Everywhere, through first-hand contact, they will learn more about the great country in which they live.

Thrown a great deal on their own resources—yet not too much—they will develop a poise and self-reliance they could get in no other way. The theory of books will become the actuality of fact.

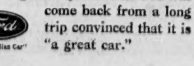

Each night they will sit down and write a letter telling what they have seen and what they have done in that particular day. And two proud parents at home will read and envy and prepare perhaps to set forth on a similar adventure.

It seems altogether natural and logical that the Ford was selected for an extended trip of this kind. Always it has been associated with dependable, economical, useful transportation. For more than a quarter of

a century it has been both pioneer and leader.

Years ago it was the first automobile ever seen in many of the sections the boys will visit. Today it is a part of the lives and activities of millions of men and women. So universal is its service that people everywhere look upon it not only as an automobile but a national institution. It is the symbol and the expression of high value at low price, unique manufacturing and production methods, and higher wages for Canadian workmen.

Many thousands of miles of use will confirm your first impression of quality and give you a feeling of pride and satisfaction in the performance of the Ford. It will meet your highest expectations. You will come back from a long trip convinced that it is "a great car."

# Argentine to Build Grain Elevators

**WILL FOLLOW SYSTEM USED IN DOMINION**

**Canadian Firm Will Likely Carry Out Project Next Year**

Canadian Press  
PORT AUFRAY, Ont., June 5.—It is expected that within the next year on the project of the Argentine government to build a chain of grain elevators, the Dominion of Howe, president of C. D. Howe & Company, consulting engineers, said Thursday. Mr. Howe has just returned from a large business trip, during which seven weeks were spent in the Argentine.

During his stay there, he presented to the government, on its request, a report on methods of handling grain in bulk in the Argentine. It is expected that this large project, which would consist of a chain of elevators and 600 small grain elevators, will be constructed, with a total capacity of 300,000 bushels.

As present grain is handled in the Argentine in sacks, but with the building of the elevators it will be handled in bulk as in the Dominion. If the construction of the elevators is carried out, a large quantity of grain will be taken to the Argentine from Canada to the work on the place.

**Budget Debate Warming Up—Fifty Members May Speak**

By THOMAS H. BLACKLOCK  
Edmonton Bulletin  
OTTAWA, Ont., June 5.—General debate on the budget is expected to continue until July 16, when the House will divide on the Budget amendment, and proceed into committee to consider the resolutions on taxation and subsidies and the changes in the tariff schedule. It is the consideration of the resolutions that makes for the long time, and as they are many and important, there is little hope now expressed of proceeding before July 16.

"Liberals do not intend to open the debate, but in such a wide-reaching budget the cabinet is almost impossible. Many did not expect the address, delaying the extension of their view until the budget. It is believed that in all parties there will be at least 100 who will criticize or endorse the proposals of Premier Bennett."

**STEVENS MAKES GOOD.**  
Hon. J. T. Ralston and Hon. H. H. Stevens, who spoke Thursday, are worthy representatives of the two main parties in the House. Mr. Stevens is "making good" in the department of trade and commerce and has been very active in the work of maintaining the accumulated surplus of the last crop.

The views of the Liberal party in the House of Commons were expressed today by Hon. J. T. Ralston, financial critic of the party. He condemned the higher duties on the future to encourage export trade, grain, taxation, omission of unemployment relief measures, and concluded that "Canada first" as a political policy would place the country in a most unenviable position.

The rupture of the trade relations with Great Britain is attributed to the action of the government in doubling the duty on wheat, thus prohibiting the importation of goods from the United Kingdom. The Versailles Treaty, he said, gave the government the right to do so, but it was a mistake to do so.

of some people as to the real worth of the exchange system. The fact that grain exchange will be a success is planned to discuss with government officials any suggestion made in the report for establishment of a system of supervision.

**AIRPORT MIND**  
—Members of the exchange were greatly impressed with the remarkable display of economy, knowledge and the direct mind of Sir Joseph Stansfeld, and also the ability of Chief Justice J. T. Brown and W. E. Davidson, who were the chief speakers. The exchange and clarity of thought and action. I am therefore certain that any suggestion made in the report as to the method by which we can improve our system and remove any feeling of distrust will have our immediate attention.

In the opinion of Sidney T. Smith, a leading Ottawa banker, the stamp report "will double the value of the approval of the grain trade, farmers and the country generally." A statement made by the speaker, Smith declared that the report "was and will be a great success."

He thought grain exchange officials would be very much interested in the appointment of a supervisor and the appointment would do much to improve the system and remove any feeling of distrust will have our immediate attention.

Steady progress is being made in placing outer cover on the giant navy ship Akron, being built at Akron, Ohio. Control car, projecting below streamline of lower hull and built as an integral part of structure. Here commander and staff will be housed, smallness of car reducing air resistance to minimum.

It certainly looks as though these were dirty work afoot here, and all the trimmings. But it's all right—just the boys of the British army having a lot of healthy fun in rehearsing for the big searchlight tactics at Aldershot, Eng. Scene: Druid sacrifice, arch Druid plunges dagger home in victim on sacrificial stone. Fun, no end.

Pretty Annam women walking from the Indo-Chinese pavilion of the French colonial exposition, after their inspection of it. The picture might well have been made in their native Annam, instead of the modern Paris.

Women won't be satisfied, apparently, until they wear article for article the same as men. Here's Alice Doll of Hollywood, Calif., wearing what has all the earmarks of a man's cap. She created the style herself. She didn't like a tam, but likes this, so she says.

Preparing for 600-yard surfboard championships at pre-Olympic pageant and water sports carnival at Hermosa Beach, Calif., June 13. Fair experts began their workout. Event is part of series planned by Southern California cities in celebration of approach of 1932 Olympic games. Here is lineup of contenders ready for practice run.

William Mulholland recently celebrated his 86th birthday at his Purchase, N.Y., home. He is known as "Iron Duke" of boxing and the trainer of John L. Sullivan.

Group of collective farmers starting out for fields in Moscow district, to begin spring sowing. According to Soviet statistics individual farmers have discovered so many advantages in large scale farming methods of collectives, that there are over eleven million households now joined in collectives of the U.S.S.R.

Just a lot of soreheads—That's first conclusion after looking at ABOVE collection of hand-picked heads. This handful of workmen of Japan Dyeing Company of Tokyo is all that remains of 200 hunger strikers after 20 days. They set a new endurance mark but failed to obtain much sympathy from public. Handbills on wall read, "Victory, even if we must die for it."

The cities of Egypt have recently been centres of political disturbances and riots. ABOVE street car wrecked and burned by rioters in the streets of Cairo, Egypt.

Dr. Thomas Cann, British scientist, and his bride on their arrival in New Orleans, La., after a honeymoon in Southern Mexico, where they discovered a hitherto unknown Mayan temple city in the dense jungle.

After spending two years in making what he believes to be the world's largest Bible, and having just finished building a special automobile to exhibit it in, Louis Weyman, Los Angeles, carpenter, will soon start on a tour to Canada, Europe and Palestine. Using a hand-stamping machine which he also constructed himself, Weyman individually stamped on to the three-foot pages of his giant book, every separate letter, symbol and punctuation mark in Bible.

## WORK FOR TWO DAYS WEEKLY TO BE GIVEN

### Ald. Collison Points Out Edmonton Must Now Budget for a Deficit

From now on single unemployed in the city will be given one day's work a week to tide them over until the food at the public kitchen is used up. The city will be asked to find a few dollars to tide them over until the food at the public kitchen is used up. The city will be asked to find a few dollars to tide them over until the food at the public kitchen is used up.

### WOULD CUT COST

Alfred Collison, chairman of the committee, said that the means given last winter for the 1750 men, but with the reduced cost of food it is considered that the mean can be provided for 15 cents. It will be open for the men to provide for themselves if some of them like to get together and arrange a tent for their sleeping quarters.

The alderman said the city must now have a budget for a deficit. The city must now have a budget for a deficit. The city must now have a budget for a deficit.

Ald. Broughall protested against the men being asked to give up their work in return for food. He said that the city must now have a budget for a deficit.

The Mayor-Town men want to prevent their self-support. It is a question of getting something without giving a return. I don't believe that they will want it.

Ald. Smith and Topping who represented two sections of the unemployed were given permission to speak for a minute.

Mr. Smith said that the city had paid less than the union rate of 50 cents per hour. He said that the city had paid less than the union rate of 50 cents per hour.

### MUST MAKE WORK

Mr. Collison said that the city must make work for the men. The city must make work for the men. The city must make work for the men.

## BULL FORCES SEND FUTURES HIGHER AGAIN

WINNIPEG, June 5.—Continued improvement in weather conditions across prairie provinces, combined with the fact that the Winnipeg Grain Futures Board reported today that the Canadian Wheat Pool had sold 100,000 bushels of wheat in the west at 100¢ per bushel, values at the close displaced those of yesterday in the wheat 10¢ to 15¢ for the day.

July closed at 84 1/2, a gain of 10¢ to 15¢ for the day.

Speculative buying predominated in the wheat market, and the futures were active and offerings were well absorbed. Small commercial export business did not reflect in the price.

Chas. Wheat trading said that prices at Winnipeg were in sympathy with those at St. Paul.
